

## **AutoCAD for Beginners (CAD)**

### **Course overview**

An introductory course intended to teach participants how to use the AutoCAD software package to produce two dimensional drawings. The course gives an overview of the complete process involved in starting a drawing to finishing a drawing by printing/saving.

### **Suitable for**

This introductory level course is suitable for anyone with an interest to learn industry standard software for design and drafting purposes.

### **Course outcomes & benefits**

The course tutorials cover a broad range of AutoCAD commands and their applications to produce two-dimensional drawings. The tutorials provide an opportunity to practise the skills required to complete drawings from scratch and then finishing them by applying dimensions, texts and printing.

### **Course content**

- AutoCAD Screen Interface
- Getting Started
- Drawing Objects with Precision
- Modify Commands
- Hatching
- Texts
- Dimensioning
- Printing

### **Duration & course dates**

1 day Sat 21/03/09 or  
Sat 21/11/09

### **Cost**

\$375

### **Assessment**

There is no assessment on this course.

### **Location**

Ground Floor UNSW L5 Building, 223 Anzac Parade, Kensington NSW 2033
