

BSB41407 Certificate IV in Occupational Health and Safety

This course provides practitioners, supervisors, middle and senior managers with vital OHS knowledge relative to workplace roles, responsibilities and work levels. It provides knowledge and training to ensure that safety systems are implemented and monitored across the workplace.

Designed for

Anyone with OHS workplace responsibilities.

Course outcomes & benefits

This course is very popular for people who are currently working in OHS and seek to obtain or upgrade their credentials. It is also useful for people who are wishing to move into practice in the OHS field. Some people undertake it to expand and/or update their knowledge and skills in the area.

Course content

- Monitor a safe workplace
- Identify hazards and assess OHS risks
- Contribute to the implementation of strategies to control OHS risk
- Assist with compliance of OHS and other relevant laws
- Contribute to the implementation of the OHS consultation process
- Manage projects
- Contribute to the implementation of emergency procedures
- Assist in the design and development of OHS participative arrangements
- Implement a strategic and systematic approach to manage OHS
