

Adobe Flash

Create professional websites and interactive multimedia presentations from scratch using Flash. The course also includes advanced actions and dynamic web content. It is recommended that learners have some experience of basic graphical techniques, for example Photoshop (at a beginner level) and Windows operations.

Designed for

This course is perfect for beginners or people who have an interest in web design. If you enjoy graphics and web design and would like to gain the full complement of skills to operate effectively as a Graphics Designer or Web Developer then it is recommended that you attend.

Course outcomes & benefits

Using this leading animation software you will be able to create animated ads for websites, interactive presentations, flash websites and animation for fun.
